

QC Holiday Mini Mart Sale

2018 Rules and Instructions

1. You may sell any quarter scale item or kit you wish to sell. You are encouraged to offer at least a few items at a low cost to make sure the Mini Mart is available to all our members regardless of the size of their pocketbooks.
2. You can sell up to 6 individual items. Each will have its own section on a single webpage with each participating vendor having one page of their own. Web pages are created by Janet Smith and will be similar to our roundtable pages.
3. You can supply one photo of each item. If you REALLY need two (e.g. to show a front and rear view), we will include two but they may have to be smaller. All photos will be linked to a bigger view of the photo, so send photos in as high resolution as you have.
4. Remember, this is a sale so enhance your sales by making the price attractive. Your prices should not be higher than the prices offered on your website. A good incentive is free or reduced shipping to customers.
5. You must have your pictures and the application submitted no later than November 30, 2018. Send to: team@quarterconnection.com.
6. You will be notified when the webpages are ready for review. It is your responsibility to review your listings for accuracy and notify team@quarterconnection.com of any changes prior to the opening of the QC Mini Mart.
7. As things sell out, you may resubmit items to replace those sold throughout the Mini Mart, but you must be very patient with your website administrator who will be updating the pages as needed :-)
8. Send your contact information in a single email by cutting and pasting this block of text into an email and filling in your own information. You need only send this one time (not with each listing):

Name:
Business Name:
Business Website (if applicable):
Email address:
Payment Types Accepted:

9. Send a single email for each item offered. Attach a photo **AS A .JPG FILE** (do not insert the photo) to the message. Cut and Paste this block of information into the email and fill in the appropriate information. If your shipping cost breakdown varies from the three options shown below (which is appropriate for US vendors), modify the headings accordingly:

Item Name:
Brief Description: <optional>
Kit or Finished Item:
Size:
Price:
Quantity Available:
Shipping US:
