

COOKIE JAR & COOKIES

Cut out printie.

Cut a 5/16" dowel the same height as the printie.

Paint the top and bottom of the dowel a coordinating color.

Punch rounds from cardstock. I cut one each 5/16", 1/4", 3/16" and 1/8" and glue them one on top of the other to create the lid. Paint the lid. When dry add a no hole bead to the top for handle and glue to dowel. When dry coat the entire piece with gloss varnish.

For the cookies, I cut 1/8" circles from thin cardboard and added "chocolate chip" dots with brown marker. These were glued to a little sequin plate.
