

Snowman and melted snowman

- 3 beads all different sizes for the snowman and 1 smallest size for melted snowman
- 2 grommets - one for each snowman
- Pin or piece of wire
- Glitter
- White paint
- Gloss mod podge

Thread the 3 beads on pin or wire and glue them all together. Leave the excess pin on until you are completely done as it gives you something to hold onto.

Paint white and sprinkle glitter on while the paint is still wet.

Fill the hole in the top of the grommet. I used a bit of spackle. Paint the grommet black. When dry glue to top of snowman.

For the melted snowman, glue a grommet hat to the top of the smallest bead (paint this bead white). Make a puddle on wax paper of mod podge. Drop the bead and grommet into the puddle. Add a bit more mod podge to the bead and sprinkle with glitter.

Set both aside to dry. When dry you can add eyes and nose if you like. At this point you can cut off the rest of the pin.
