

## BOOT VASE By Sherri Lackey

### Items needed:

3D printed boot - I used the Victorian boot from Ruth Stewart, but any boot will do as long as it is open on top.

Glue - I used tacky glue.

Flush cutter

Paint

Material to make flowers: floral wire, petals and leaves.

Paint your boot on the sprue. Be creative. I used polka dots. Allow to dry.

Make 3 single flowers to match your boot. Cut stems to fit the boot. Apply glue to the stems and place in the boot.

Cut the vase from the sprue.

Enjoy your arrangement in your Whimsical House!!
