

## FLOOR LAMP

By Michelle Miller

### SUPPLIES

Pin  
Jewelry finding  
2 small faceted beads  
1 seed bead  
Jewelry finding  
Jewelry finding  
Flower shaped bead

See the photo and find different jewelry findings in your stash to build this light. Don't worry about the color of the findings or beads, it will all be painted.

Take the pin and following the photo, glue beads and findings to pin. Start with the finding that will be your base. Add a faceted bead and seed bead.

Near the top glue a faceted bead and the 2 different findings. Paint this whole thing white or color of your choice. I used whippet nail polish. It will take a couple of coats. When dry, glue on the flower bead for your shade.
