

SMALL BUFFET OR SMALL DRESSER

Michelle Miller

Use a BPF dresser and cut off the mirror. Sand the cut area smooth. Sand off the knobs.

Spray this with white primer or paint. When dry, paint the color of your choice. I used Folk Art Bayberry.

Cut a strip of the large stripe in the paper to fit the top and glue in place. Cut 2 pieces of the small stripe in the paper to fit the drawers and glue in place. (These stripes are shown in the rectangles on the printie). Take the checkered printie and cut strips 1 block wide. Trim the top and down the sides with this trim.

When dry, spray with a matte finish and add 4 no hole beads for knobs, 2 per drawer.
