

Whimsical Furniture for Inside and Outside

By Jene Bondi

Tools needed

Paper punches of your choice or you can buy pre-punched flowers/leaves. If you are into ME style D&K Miniatures have some. (Pictures of some punches I used are at the end).

Paper--colored or color your own or wallpaper

Markers--your color choice

Mouse pad or foam pad

Ball stylus

Glue--I used tacky

Furniture--I used brown plastic furniture

Green paint

Thin paint brush

1. Color your paper, punch out the flowers/stems.

2. Use your ball stylus and foam/mouse pad and press down to curl the flowers.

3. Figure out where you want to stick the flowers on the furniture.
4. Paint the stems and vines with your thin paint brush.
